EDITOR'S NOTEBOOK

Dear Archie Readers,

I'm sure that as many of you return to school, the anticipation of diving back into your studies is underwhelming. However, what if you knew that your new teacher had some extraordinary talents besides teaching. Well, that's what happens to Archie and his friends when they meet their new physics teacher for the first time. It turns out, that besides teaching, he moonlights as a stand-up comedian. See where this is going, guys? Imagine going to class and having your teacher do a comedy routine around whatever subject you're there to learn. For example: your geometry teacher wants you to create triangles with three one-liners. Get it? Anyway, the faculty at Riverdale High doesn't exactly approve of this approach to education. What do you think? Can humor in the classroom inspire students? Will it inspire Archie? Will it keep Jughead awake? The answers to these earth-shattering questions and more will be answered when you read ARCHIE & FRIENDS #26 December (on sale next month).

Now to all you Sabrina fans out there. If you had Sabrina's magical powers, I'll bet there are a lot of wacky ideas dancing around in your heads that you'd love to try. Well, in SABRINA THE TEENAGE WITCH #8 December, Sabrina casts a spell on her TV set to change the ending on her favorite show, "Sunset Place 90358." But...and you knew there was going to be a "but," the spell backfires and Sabrina winds up in the show. Needless to say, when Sabrina squeals on all the two-timing characters, the show becomes total chaos. Don't miss it.

The History of Comics

Cave drawings and Egyptian hieroglyphics might be considerd the first comics. Even during the American Revolution, comics were published with speech balloons and all. But in 1896, yellow ink was created and the Yellow Kid was born. This was the beginning of newspaper comic strips. Actually, they were one-panel gags. Then in 1938, Action Comics published the first comic book--Superman. In the 1950's television was new and took sales away from comic books. Also comic books were being blamed for juvenile delinquency, and sales dropped more. In 1954, comic book publishers together saved the industry by forming the Comics code Authority. The Comic code stamp ensures appropriate reading material for young readers.

Quilts

Quilting is a needlework art in which two layers of fabric are sewn together with padding in between. A patchwork quilt is made by cutting scraps of cloth into various shapes that are sewn together. Another type of quilt is the applique where shape such as flowers, etc. are cut from cloth and are sewn on top of a piece of fabric.
